SPECIALTY

OLDEN TIMES

The formula by which Mishler's Herb Bitters is compounded is over two hundred years old, and of German origin. The entire range of proprietary medicines cannot produce a preparation that enjoys so high a reputation in the community where it is made.

MISHLER'S HERB BITTERS

It is the best remedy for Kidney & Liver Complaints, Dyspepsia, Cramp in the Stomach, Indigestion, Malaria, Periodical Complaints, etc. As a Blood Purifier, it has no equal. It tones the system, strengthening, invigorating and giving new life.

The late Judge Hayes, of Lancaster, Pa., an able jurist and an honored citizen, once wrote, "Mishler's Herb Bitters is very widely known, and has acquired a great reputation for medicinal and curative properties. I have used it myself and in my family several bottles, and I can say that the reputation is not unmerited."

MISHLER HERB BITTERS

525 Commerce St., Philadelphia.

Parker's Pleasant Warm Syrup Never fails.

How Watch Cases are Made.

Most persons have an ambition to possess a gold watch case, and yet few know how a watch case is made, or the vast difference in the quality of them. In a Solid Gold Watch Case, aside from the necessary thickness for engraving and polishing, a large proportion of the metal is needed only to silicon and hold the engraved portions in place, and supply strength. The surplus is not only needless, but undesirable, because gold is a soft metal and cannot furnish the stiffness, strength and elasticity necessary to make the case permanently strong and close fitting. The perfect watch case must consist of gold, which is a metal that will supply that in which the gold is deficient. This has been accomplished by the Jones' Patent Gold Watch Case, which saves the weight of useless gold, and increases the solidity and strength of the case, and at the same time reduces the cost one-half.

Send 25 cents to Boston Watch Case Factories, Philadelphia, Pa., for a free illustrated pamphlet showing how Jones' Patent Gold Watch Case is made.
